

FilterTable GWT

FilterTable GWT 400 V / 50 Hz:	95 0400 020
FilterTable GWT 460 V / 60 Hz:	95 0400 021

The fume extraction FilterTable GWT is an affordable combination of working table and filter unit. The large work surface allows for effective work during welding and grinding with low to medium levels of smoke and dust. The device with disposable filter is suitable for occasional to frequent use.
