Extraction capacity 3800 - 5500 m³/h · PE-M:	22 260
Extraction capacity 3800 - 5500 m³/h · ePTFE:	22 261

The PlasmaFil filter system of the Automation-Line is supplied ready to use and can be set up and put into operation in just a few seconds thanks to its compact design. The particularly large filter surface enables a long service life, even with large amounts of dust. This makes it particularly suitable for extraction during plasma or flame cutting processes. Due to the different pipe connection options, the PlasmaFil can be tailored to the needs.
